RECOMMENDATION

Dear Sir or Madame,

the artist Josef Ka (Svetlana Karimova) worked together with the project 'PILOTENKUECHE / international art program' during the 31st round in May 2017. With her intense performative project "Silence" the artist fascinated and irritated the visitors during the final exhibition of the 31st round. She created within a short time a convincing and mindful work, well conceived and realized it in a professional manner. Insofar the team of "PILOTENKUECHE" made a short, but very positive experience with the artist.

The project itself which supports artists around the world, is specially focused on synergistic group dynamics and is open to any discipline of visual arts. The non profit institution concerns with its conception on transdisciplinary exchange between its residents and – moreover – the local art scene. Josef Ka convinced with her intense sculptural related performances, her professional manner of working and – during the residency - with her concentrated working style. Her thought-provoking aesthetics lead to a fruitful confrontation of the visitor and the objects, which are created. Reception becomes activity and makes art alive. The results are consistent workouts and the artist is able to unite her concepts with her aesthetical senses as well as ideas and theories from different sciences, literature and materials. Different approaches are combined to a diversity and transformed into an artistic statement. She finds an artistic expression for essential questions of human and its social and as well psychological syndromes.

In view of the project 'PILOTENKUECHE' the artist used the inner opportunities of the project. Beside the own development the artist supported the project, helped to build up exhibitions and other preparations. This is why we love to recommend a collaboration with the artist in full. We also would be happy to welcome her again in the future and to work with her. We recommend to work together with Josef Ka in full and are available for questions at any time.
